THE IDEA

ELMORA DOES NOT DECORATE SPACES. IT DEFINES THEM.

ELMORA is a furniture house for people who see their home, their hotel or their office as a statement. We bring together furniture of lasting quality, a considered eye for design and a service that follows every project from the first conversation to the final installation.

Every piece we choose has to earn its place in a room — through its form, its materials and the way it will be lived with for years.

HERITAGE

1990

A NEW NAME. A LONG STORY.

The Daher family has worked in furniture since 1990, building showrooms and furnishing homes and projects across the Middle East and Africa under other names.

ELMORA is the family's new house. Founded in Maputo in 2026 by Hassan Daher, second generation of the family, it brings more than three decades of experience to Mozambique.

Hassan Daher

FOUNDER & CEO

LUXURY FURNITURE, NO LONGER A JOURNEY AWAY.

For years, clients in Mozambique who wanted true luxury furniture travelled abroad to find it. ELMORA brings it home — with the range, the quality and the service they used to look for elsewhere.
